

VEGO - A VIETNAMESE VEGAN FAST FOOD CHAIN

I. Vego brand context

1. Addressing the fast food challenge

Fast food is immensely popular worldwide due to its taste and convenience. However, traditional fast food options are often high in calories, sugar, and fat, while being low in essential nutrients. This nutritional imbalance contributes to various health issues, such as obesity, heart disease, and diabetes. According to the [World Health Organization](#), global obesity rates have nearly tripled since 1975, and fast food consumption is a significant contributing factor. As consumers become more health-conscious, there is a growing demand for healthier alternatives that do not compromise on convenience and taste.

2. Vietnamese tradition and health consciousness

Vietnamese cuisine is renowned for its emphasis on fresh ingredients, herbs, and balanced flavors. The 2022 report on consumption of organic food by [AC Nielsen](#) showed that 86% of Vietnamese consumers preferred organic food for daily meals. Vietnamese people have a long-standing tradition of incorporating plants and herbs into their meals, making their diet inherently healthy and nutritious. This cultural preference for wholesome, plant-based foods has influenced their eating habits and health consciousness. The limited success of fast food giants like McDonald's in Vietnam, with only 22 outlets nationwide since its entry in 2014, highlights the local population's reluctance to embrace high-calorie, low-nutrient fast food options that do not align with their dietary preferences and health goals.

3. Vego's solution

Vego aims to address these challenges by offering a healthy vegan fast food menu that aligns with Vietnamese dietary traditions and health consciousness. Vego's menu is designed to provide the convenience and taste of fast food while ensuring high nutritional value. By using fresh, plant-based ingredients and innovative recipes, Vego creates delicious and satisfying meals that promote overall well-being. The brand's offerings include a variety of vegan burgers, wraps, pizzas, salads, and smoothies, all crafted to meet the nutritional needs and taste preferences of health-conscious consumers.

To revolutionize the fast food experience by offering the most delicious and nutritious vegan meals made from locally sourced Vietnamese ingredients, promoting health and sustainability.

4. Changing perceptions of fast food

Vego's mission is to change customers' perception of fast food with the message: "Fast food does not mean it is harmful to health; customers can enjoy fast food while ensuring nutritional value and maintaining a healthy eating lifestyle." Vego's commitment to using high-quality, plant-based ingredients ensures that every meal is both delicious and nutritious. By providing a convenient and healthy alternative to traditional fast food, Vego empowers consumers to make better dietary choices without sacrificing the convenience and pleasure of eating out.

5. Market Potential

- A research paper by [Cimigo](#) states that 85% of Vietnamese consumers are actively trying to improve their diet.
- The Vietnam plant-based protein market size was estimated at USD 46.28 million in 2022. During the forecast period between 2023 and 2029, the market is projected to grow at a CAGR of 25.4%, reaching a value of USD 225.68 million by 2029 ([BlueWeave Consulting. \(2023\). Vietnam plant-based protein market.](#))

II. About Vego

Vego is an innovative fast-food chain dedicated to providing healthy, delicious, and convenient vegan meals. We stand out by exclusively using organic and plant-based ingredients that are proudly hand-grown in Vietnam, and sourced directly from local farmers who share our commitment to quality and sustainability. We aim to redefine fast food by making it a healthy choice for everyone, proving that plant-based cuisine can be just as delicious as traditional fast food.

Slogan:

Vego: Where Healthy Meets Delicious

III. Brand Story

Vego was born from the realization that the fast food industry needed a revolutionary change. Our founders, inspired by the global shift towards health-conscious eating, envisioned a place where fast food could be both quick and nourishing. With a deep respect for traditional Vietnamese cuisine,

To revolutionize the fast food experience by offering the most delicious and nutritious vegan meals made from locally sourced Vietnamese ingredients, promoting health and sustainability.

which emphasizes fresh herbs and balanced flavors, Vego combines the best of both worlds – the convenience of fast food and the wholesomeness of plant-based meals. At Vego, we believe that fast food doesn't have to be synonymous with unhealthy eating. Our journey began with a simple goal: to offer an alternative to the calorie-laden, nutrient-poor options that dominate the fast food market.

IV. Products/Menu

1. Burgers

V. Vision

To be the leading vegan fast food brand in Vietnam, renowned for our commitment to organic, locally sourced ingredients, and transforming the global perception of fast food by making it a delicious, health-conscious, sustainable choice.

VI. Mission

To revolutionize the fast food experience by offering the most delicious and nutritious vegan meals made from locally sourced Vietnamese ingredients, promoting health and sustainability.

To revolutionize the fast food experience by offering the most delicious and nutritious vegan meals made from locally sourced Vietnamese ingredients, promoting health and sustainability.

VII. How do we stand out from other vegan restaurants in Vietnam?

1. Organic and locally sourced ingredients

According to a research paper by [Cimigo](#):

- Nearly 2 in 3 consumers claim that they are prepared to pay up to 10% more for organic and natural foods.
 - Vietnamese organic and natural products are emerging and becoming accepted by consumers (23%)
-

Unlike many vegan restaurants that may use conventional ingredients, Vego exclusively uses organic ingredients sourced from local Vietnamese farmers. This commitment ensures higher quality, better flavor, and supports local agriculture.

2. Deliciousness and convenience of fast food with a health focus

Vego's menu is crafted to ensure that plant-based meals are just as delicious and satisfying as traditional fast food from major non-vegan chains. While many vegan options may be sit-down or slower to prepare, Vego offers quick-service meals without compromising on health.

VIII. Positioning

The most **delicious** vegan fast food chain made of Vietnamese material

IX. Proposition

1. **Delicious:** Each meal is crafted to deliver bold, mouth-watering flavors, ensuring our meals are just as tasty as those from major non-vegan chains.
2. **Nutritious:** Balanced meals crafted from fresh, organic, and plant-based ingredients that cater to health-conscious consumers.
3. **Sustainability:** Supports local farmers and eco-friendly practices by sourcing ingredients locally.
